Re: Prices of public notices: **PLEASE SAVE**

June 22, 2021

At the direction of the INA Board of Directors and the Government Relations Committee, the INA works with the Iowa Department of Management and other state agencies to determine the maximum cost that may be charged for each public notice prepared on a form.

The instructions in the INA Publishers' Handbook for computing the cost of a photographed notice were followed by the INA when computing the costs for the following notices. The rates which are effective for notices published on or after July 1, 2021 were used. For the most part, the notices have been designed by the state agencies to comply with the newspaper industry's Standard Advertising Unit column measure.

Please note that the Department of Management is in the process of changing some of its annual public notices and as we have more information it will be shared in the INA Bulletin.

In most cases, you may enlarge the notice or reduce it (so long as the type size does not fall below six-point type). In any event, you should not charge more than the price listed below for each notice.

In some cases, the government unit placing the publication may add explanatory information at the bottom of the form. The price per line for that matter is also listed below.

These notices are identified by a notice code usually found in the upper left-hand corner of each notice. Again, please note that the Department of Management is updating the format of some annual public notices.

These rates plus additional information regarding public notices can also be found online at [www.INAnews.com](http://www.INAnews.com). If you have any questions, please feel free to call the INA for help.

**FORM 600**

Notice of County Intention to Levy General Basic Property Tax Rates Which Exceed Statutory Maximums (**Precedes form 600**) whenever used  
3 column (SAU) X 17 lines, 8-point type - **\$28.60**
