

We can stop HIV, Iowa—

by taking a **whole-person**
approach to our sexual health.

Get screened for HIV at least once in your lifetime,
and request HIV screening any time you are getting
tested for sexually-transmitted infections (STIs).

STIs can cause long-term health issues when left
untreated. They can also increase your chances of
acquiring HIV. Getting tested for all sexually-
transmitted infections is the best step you can take to
protect your own health and help to stop HIV in Iowa!
